

Cardiovascular Grand Rounds Maastricht 2018

Starts at 7.45 am
Maastricht UMC+
Meeting room A3-B3,
Hospital level 3
Breakfast included!
Registration not necessary

12/01	Bianca Brundel, PhD A story of life and death: the role of proteostasis in cardiovascular diseases	VU Medical Center, Amsterdam
19/01	Judith Sluimer, PhD Oxygen sensors and single cells in atherogenesis in 2018: out with the old, in with the new	Maastricht University Medical Center
26/01	Marit Westerterp, MD, PhD Cholesterol efflux pathways suppress inflammasome activation in mice and humans	University of Groningen
02/02	Henner Hanssen, MD, PhD Exercise and vascular ageing during lifespan	University of Basel, Switzerland
09/02	Claudia Götsch, PhD Molecular mechanisms of vascular calcification – extracellular vesicles and their cargo	Rheinisch-Westfälische Technische Hochschule, Aachen, Germany
16/02	Carnaval	
23/02	Mauro Giacca, PhD Genetic drugs for cardiac repair and regeneration	ICGEB, Trieste, Italy
02/03	Riekelt Houtkooper, PhD Translational metabolism: improving mitochondrial function to combat aging and metabolic disease.	Academic Medical Center Amsterdam
09/03	Carroll Webers, MD, PhD Are the eyes a window to cardiovascular disease?	Maastricht University Medical Center
16/03	Harald Schmidt, MD, PhD There are no cardiovascular diseases	Maastricht University Medical Center
23/03	Menno de Winther, PhD Regulation of the macrophage epigenome: relevance for cardiovascular disease	Academic Medical Center Amsterdam
30/03	Good Friday	
06/04	Shyama Ramani, PhD Action-Research as a Methodology: The good, bad and ugly from the academic experiences of a social scientist - and maybe there's something in this for medical scientists too!	Maastricht University, UNU - MERIT
13/04	Leon de Windt, PhD Small steps towards a healthy heart	Maastricht University Medical Center
20/04	Gudrun Antoons, PhD Regulation of atrial function and rhythm: a nanoscale perspective	Maastricht University Medical Center
27/04	Kingsday	

Scientific contacts:

Jordi Heijman, PhD
jordi.heijman@maastrichtuniversity.nl

Blanche Schroen, PhD
b.schroen@maastrichtuniversity.nl
